

Tiffany Yong Ngik Chee

Software Development Graduate

Galway, Ireland | tiffanyyongngikchee1997@gmail.com | +353 831455763 | [linkedin.com/in/tiffanyyong-ngikchee/](https://www.linkedin.com/in/tiffanyyong-ngikchee/)

PROFESSIONAL SUMMARY

Software Development graduate with hands-on experience building full-stack applications, backend services and distributed systems. Proficient in Python, JavaScript and Java, with experience using Docker, AWS, REST APIs and gRPC. Strong problem-solving and teamwork skills developed through technical projects and professional work experience.

EDUCATION

Atlantic Technological University – Galway, Ireland | *BSc (Hons) in Computing in Software Development*

Graduation: May 2026 – Final Grade: 84%

PROJECTS

gRPC Homomorphic Encryption Benchmark (Rust, Docker, gRPC, JavaScript, AWS) | April 2026
github.com/TiffanyYongNgikChee/grpc-he-benchmark

- Developed a distributed benchmarking framework to evaluate the performance of homomorphic encryption libraries.
- Measured encryption overhead and network latency across distributed scenarios.
- Designed gRPC services using Protocol Buffers to support communication between distributed components.
- Containerised the system with Docker to provide consistent and reproducible testing environments.

CNN Garbage Classification (Python, TensorFlow/Keras) | Mar 2026
github.com/TiffanyYongNgikChee/garbage-classification-cnn

- Developed an image classification model to categorise waste into different recycling categories.
- Applied transfer learning with a pre-trained CNN model to improve classification performance on a limited dataset.
- Evaluated training and validation performance using accuracy and loss metrics.

Facial Recognition Bus Ticketing System | github.com/TiffanyYongNgikChee/EasyRide | May 2025
MERN Stack | *JWT* | *Google Maps API* | *GTFS* | *MongoDB*

- Developed a full-stack bus ticketing web application with user registration, secure authentication, route search, ticket booking, and account management.
- Integrated GTFS data and Google Maps to allow users to search bus routes and stops and view available travel options.
- Built a wallet and ticketing system supporting balance top-ups, ticket purchases, transaction history, and previously booked tickets.
- Integrated facial verification as an additional identity check during the ticket purchasing process.

WORK EXPERIENCES

Lidl — Customer Assistant | Galway, Ireland | Aug 2026 – Present

- Support daily store operations through stock replenishment, product organisation, and maintaining shop-floor standards.
- Work efficiently as part of a team in a fast-paced retail environment.

Osteria Da Simone — Waitress | Galway, Ireland | May 2024 – Jul 2026

- Provided customer service, handled payments, and supported daily restaurant operations in a busy environment.
- Developed strong communication, teamwork, and problem-solving skills while managing multiple priorities.

Clayton Hotel — Event Service Staff | Galway, Ireland | Jun 2024 – Jul 2024

- Provided professional food and beverage service during busy events and functions.
- Worked effectively within a team to maintain high service standards under time pressure.

KEY SKILLS/TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, TypeScript, Rust, Ruby, C/C++, SQL
- **Web & Backend:** Node.js, Express.js, REST APIs, gRPC, Protocol Buffers, MERN Stack
- **Frontend & Mobile:** Angular, Ionic, HTML, CSS
- **Cloud & DevOps:** Docker, AWS, CI/CD, Kubernetes fundamentals **Databases & Services:** MongoDB, Firebase
- **AI & Machine Learning:** TensorFlow, Keras, CNNs, transfer learning, face recognition
- **Development Tools:** Git, GitHub, Postman, Linux, Agile/Scrum
